

1978 Westland Gazelle HT.Mk 3 Ex-RAF History

Rotor Leasing is pleased to offer an exceptionally restored Gazelle, Serial Number 1728, for immediate sale.

This helicopter was procured from the British by Rotor Leasing in 2002 and immediately underwent Major Inspections and extensive restoration. It features the stability augmentation system (SAS), upgraded engine and trailrotor and updated PFD avionics systems.

This authentic warbird is wearing original RAF colors, is N-registered in Experimental Exhibition category and is the last Gazelle imported with operating limitations allowing aerobatics and NO proficiency area restrictions. TTAF just over 8300 hours.

Rotor Leasing imports and restores helicopter warbirds from around the world. Contact Rotor Leasing for specifications, details and photos of N931XZ.

This is your chance to own warbird history!

Maintained in accordance with the Rotor Leasing Approved Aircraft Inspection Program (AAIP) with complete records to factory delivery.

This helicopter is in experimental exhibition category, meaning you can also experiment with all the latest avionics and cool stuff.
